PROFILE

A Computer Engineering graduate from Delhi Technological University with a strong interest in software engineering and full-stack development. Experienced in building real-world web applications and passionate about developing scalable, user-centric solutions. A quick learner with strong problem-solving abilities, committed to continuous learning and contributing effectively in collaborative software development environments.

EDUCATION

Delhi Technological University <i>Bachelor of Technology in Computer Engineering</i>	Delhi, India 2022 – 2026
Zahira College <i>Physical Science Stream</i>	Kalmunai, Sri Lanka 2020

EXPERIENCE

Software Developer Intern – NexFort (Pvt) Ltd <i>Internship</i>	Galle, Sri Lanka June 2025 – Aug 2026
- Developed responsive React-based real-estate platforms, including a public-facing main UI and a feature-rich administrative dashboard. - Built public property discovery experiences for sales, rentals, land, commercial listings, projects, agents, careers, and dynamic content pages using React, Vite, and Tailwind CSS. - Implemented authenticated user features including profile management, property posting and editing, saved properties, messaging, search alerts, and contacted-listing history. - Created admin modules for property and project management, users, agents, agencies, media, inquiries, careers, content pages, widgets, SEO, and tenant settings. - Integrated REST APIs with Axios and managed application state using Redux Toolkit, enabling consistent data handling across complex frontend workflows. - Implemented protected routes, permission-aware navigation, role-based access control, and cookie-based authentication with Laravel Sanctum CSRF support.	

PROJECTS

Queline <i>Next.js, TypeScript, Express.js, PostgreSQL, Prisma ORM, Oracle Cloud (VPS), Nginx</i>	GitHub / Website
- Built a full-stack digital queue management platform with a Next.js 16 frontend and a separately deployable Express.js REST API. - Developed secure admin workflows for service management, walk-in token creation, and queue operations including call-next, skip, complete, and reset. - Implemented public QR-enabled queue access, allowing customers to join queues, receive tokens, and track live queue position with estimated wait times. - Implemented credential and Google OAuth authentication, API-managed sessions, idempotent queue operations, and PostgreSQL persistence using Prisma ORM. - Deployed the application on an Oracle Cloud VPS using Nginx as a reverse proxy, PM2 for process management, HTTPS with Let's Encrypt, and automated production deployments via Bash scripts.	
EduSuite <i>Next.js, TypeScript, SQLite, Drizzle, Oracle Cloud (VPS), Nginx</i>	GitHub / Website
Developed EduSuite, a full-stack academic registry and course catalog management portal using Next.js (App Router), React 19, and TypeScript.	

- Designed and optimized a local relational database using **SQLite** and **Drizzle ORM**, implementing cascade deletes, soft deletes, and database-level constraints.
- Built secure API route handlers with robust schema-based input validation using **Zod** to enforce strict runtime constraints.
- Engineered a real-time system audit log dashboard that dynamically tracks registry events (**CREATE, UPDATE, DELETE, ENROLL**) via auto-refreshing components.
- Deployed the application on an **Oracle Cloud Infrastructure (OCI) VPS** running a Linux environment, configuring an **Nginx reverse proxy** and SSL/TLS certification for secure production hosting.
- Implemented a custom academic transcript print engine, debounced multi-dimensional search, and fluid transitions using **Framer Motion** and **Tailwind CSS**.

Formora – Workflow-Driven Form Platform | *Next.js, Tailwind CSS, PostgreSQL, Prisma*

[GitHub](#) / [Website](#)

- Built a **schema-driven form platform** enabling users to create dynamic forms with customizable fields and validations.
- Implemented a **conditional logic engine** to dynamically show/hide fields based on user input.
- Developed a centralized **dashboard with analytics** to manage and filter responses efficiently.
- Designed **workflow-based actions** triggered on form submissions for automated data handling.

FashShop | *React, Tailwind*

[GitHub](#) / [Website](#)

- Developed a responsive fashion e-commerce website using **React.js** and **Tailwind CSS**.
- Implemented dynamic product showcases, a dark mode toggle, and an interactive testimonials section.
- Deployed on Netlify with automatic CI/CD for fast and efficient production builds.
- Optimized for seamless user experience across all screen sizes and devices.

Personal Portfolio Website | *React, Framer Motion, Tailwind CSS, EmailJS*

[GitHub](#) / [Website](#)

- Designed and developed a fully responsive portfolio website featuring glassmorphism UI and smooth animations using React.js, Tailwind CSS, and Framer Motion for enhanced user experience.
- Implemented dynamic navigation with Intersection Observer API for scroll-triggered section highlighting and seamless page transitions.

ACHIEVEMENTS

Got Selected for the Nehru Memorial Scholarship scheme to study Computer Engineering at the Delhi Technological University (formerly Delhi College of Engineering). Scholarship was offered by the Indian Council for Cultural Relations (ICCR).

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, TypeScript, HTML/CSS

Frameworks: React, NextJS, Node.js, Express.js, Tailwind

Database: MongoDB, SQLite, MySQL, PostgreSQL

Developer Tools: Github, Postman, Vercel, VS Code, Figma, PyCharm

SOFT SKILLS

Problem-Solving, Teamwork, Adaptability, Communication, Time Management

CERTIFICATIONS

- **Python Programming:** A comprehensive series of courses in Python Programming through the Open Learning Platform at the University of Moratuwa - Sri Lanka. ([Link](#))
- **Front-End Web Development:** Successfully completed the online learning programme in Front-End Web Development conducted by the Department of Information Technology, Faculty of Information Technology, University of Moratuwa, Sri Lanka. ([Link](#))

EXTRA-CURRICULAR ACTIVITIES

- **Member, Electoral Commission:** Served as a member of the Electoral Commission for the DTU International Student Association, ensuring fair and transparent election processes while fostering student engagement and participation.
